

93. Another New Time Signature

6 - 6 beats per measure
 8 - eighth note gets one beat

This time signature naturally has slight accents on beats 1 and 4. There are two ways it can be counted.
 It can be played *slow* so you feel all six beats (slightly accenting beats 1 and 4).
 It can be played *fast* so you feel just two beats per measure (3 eighths or one dotted quarter per beat)
